

EUCO - RUSTCUT

Description EUCO - RUSTCUT is a product to protect iron from rusting and turns rust into a stable chemical compound , through a chemical reaction .

Advantages It is a protection coat for rusty iron . Due to the chemical reaction .
EUCO - RUSTCUT changes rust into a stable chemical compound and prevents the iron to become rusty again .
Protected iron can be painted with the most used paints .

Technical Data

Finish	Hard surface after curing.
Colour	White/Yellow
Solids by volume	32%
Specific gravity	0.99gm/cm ³
T.S.R	20m/kg (15m dry)
Recommended dry film	30 microns
Wet film thickness	24 microns
Dry film thickness	15 microns
Drying time	
Surface	1 hrs (at 25 oC. 60% R.H)
Full cured	72 hrs (at 25 oC. 60% R.H)
Recoat	
Min	1 hr (at 25 oC. 60% R.H)
Max	5 days (25 oC. 60% R.H)
Thinner	Tap water.
Shelf life	Up to 1 year.
Method of application	By brush and spray.

Mode of application

-the surface must be dry and clean from dirt , oils , greases and

-old paints must be removed by sandblasting or steel brush .
